WORK EXPERIENCE

Junior Software Developer
Cargoflash Infotech Private Limited

02/2024 - Present   *Gurgaon,India*

Achievements/Tasks

- Contributed to the **Cargo Revenue System** , implementing **CQRS** , **clean architecture** , and **microservices** for better scalability and maintainability.
- Worked extensively with technologies like **Angular** , **.NET** , and **SQL databases** to deliver reliable software solutions.
- Implemented **Redis** for efficient caching and data management, enhancing system performance.
- Utilized **Docker** for containerized application deployment, ensuring consistent and portable environments.
- Designed and managed databases with **SQL Server** , optimizing queries and ensuring data integrity.

Full Stack Web Developer
BanyanCrew

03/2023 - 06/2023   *Faridabad , India*

Achievements/Tasks

- Built a comprehensive website using **Next.js** to provide online courses for students preparing for **IELTS** and similar exams.
- Designed and implemented a responsive and user-friendly interface to ensure seamless navigation and an engaging user experience.
- Integrated backend APIs to manage course data, user registrations, and payment workflows effectively.
- Optimized the website for **performance and scalability** , ensuring fast load times and a reliable user experience.

EDUCATION

Btech Computer Science
Manav Rachna University

06/2020 - 06/2024   *Faridabad , Haryana*

Senior Secondary Education (Class 12)
GBN School

05/2017 - 05/2019   *Faridabad , Haryana*

SKILLS

C   Java   JavaScript   TypeScript   C#
SQL   Angular   HTML   CSS   ASP.NET Core
Node.js   SQL Server   Redis   Docker   Git
Postman   Microservices   CQRS
Clean Architecture   Visual Studio   VS Code

PERSONAL PROJECTS

Amazon Scraper API
- Developed an API to scrape product data from Amazon, including prices, ratings, and product details.
- Built the API using **Node.js** and **Express.js** to handle requests and return structured JSON data.

OpenAI UI
- Designed a clean, responsive layout using **Tailwind CSS** and custom **CSS** for a modern user interface.
- Focused on accessibility and performance optimization for fast load times and smooth user experience across devices.

URL Shortener
- Developed a **URL shortener** application that allows users to generate short links for long URLs.
- Built the backend using **Node.js** and **Express.js** to handle URL redirection and storage.
- Integrated **MongoDB** to store original and shortened URLs for quick lookup and redirection.

CERTIFICATES

.NET Full Stack Developer Certification (Infosys Springboard)
Demonstrates comprehensive expertise in full-stack development using .NET technologies, including front-end, back-end, and database management.

Infosys Certified API Developer (Infosys Springboard)
Validates proficiency in API design, development, testing, and integration using industry best practices.
